Between 6:30 and 11 a.m. on 1 October 1951, 26 Li-2 type twin-engine transports were parked in three groups side by side at the dispersal area of Altenburg airfield. * There was no flying. * were observed on the road which ran along the northern border of the installation. ** The hangars were closed. A small building with a grid-like antenna system on top was located next to one of the hangars. Another building with a trapezoidal-shaped antenna system on its roof was located farther northeastward. * Fire entanglement had been set up along the southern edge of the field. In the southern extension of the runway there was an unguarded tower which had a rotary box on top. A tube led from this box to the ground.
